EXPERIENCE

Gareth has worked with a number of national steeplejack companies prior to setting up K2 Specialist Services (UK) Ltd in 2001.

Gareth has twenty seven years of steeplejack experience incorporating; installation and testing of lightning protection systems, chimney repairs, chimney demolition and rebuild, masonry re-pointing, stone repairs, slate repairs and reinstatement, industrial decoration of chimneys and properties and production of detailed surveys in written and video format.

Gareth has worked on numerous projects involving the above disciplines with various property and chimney types, including but not limited to historic and listed buildings, churches and various chimney types, including concrete, brick and steel.

Gareth was contacted in 2005 to assist with the installation of Jenners Christmas Tree, which was achieved using K2 Specialist Services (UK) Ltd. rope access skills to reduce both the time and costs. Since this date K2 Specialist Services (UK) Ltd have undertaken this famous annual event.

Gareth has over fifteen year's contract management experience, of which the last ten years have been running his own successful company.
